

Abdelmohsen Mohamed Thabet

Software developer

cairo, Egypt | phone:+201005360548 | [linkedin](#) | [GitHub](#)

abdelmohsenmohamed22@yahoo.com

PROFILE

Motivated **Computer Science graduate** with a solid foundation in algorithms, data structures, and web development. Focused on **backend development** using **Python (Django, Flask)**, with hands-on experience in designing and implementing **secure, scalable RESTful APIs**. Familiar with **PostgreSQL, SQLite, and JWT authentication**, with practical experience in **database modeling, API integration, and version control using Git**. Built real-world projects that follow **clean code practices**, and **agile methodologies**. Quick learner, team player, and passionate about solving problems and building efficient backend systems. Eager to contribute to professional software teams and grow in a collaborative environment

INTERNSHIP

Full Stack Python Web Developer Track

Information Technology Institute (ITI) – Intensive Training Program

March 2025 – July 2025

- Completed comprehensive hands-on training in full-stack web development using **Python, Django/Flask, JavaScript, React.js, HTML, CSS, and SQL**.
- Built complete web applications following best practices in both backend and frontend development.
- Covered key topics such as **RESTful API design, database management, version control with Git, and Agile methodologies**.
- Acquired foundational **Linux administration** skills, including terminal usage, user and permission management, and process handling.
- Configured and deployed web applications using **Apache Web Server**.
- Automated system tasks using **Bash scripting** for improved efficiency and consistency.
- Gained practical exposure to **Odoo ERP** customization and module development.

EDUCATION

Bachelor of Science in Mathematics and Computer Science

Faculty of Science, Menoufia University

Graduated: 2022

- Studied core subjects including Data Structures, Algorithms, Databases, Operating Systems, Linear Algebra, and Numerical Methods.
- Developed strong analytical thinking and problem-solving skills through a blend of mathematical theory and computer science applications.

PROJECTS

Tawasul – AI-Powered Communication Web App

ITI Graduation Project

Developed a full-stack web application using **Django (Backend)** and **React (Frontend)** to support non-verbal or verbally challenged children in communication. The system features a personalized board with picture cards, **Text-to-Speech (TTS)** in Arabic and English, **AI-based card suggestions**, and interactive learning/testing modes. Caregivers can manage content, monitor progress, and customize cards. The app also includes **secure login with PIN**, a **subscription system**, and is optimized for mobile and tablet use.

Technologies: Django · React.js · PostgreSQL · REST API · JWT · OpenAI TTS · Paymob · AI/ML (recommendation system)

Memory Matching Game

A browser-based memory card matching game built with HTML, CSS, and JavaScript. The game features a start menu with difficulty levels (Easy, Medium, Hard), each displaying a different number of cards. It includes sound effects, animated card flips, score tracking (correct/wrong attempts), and customized themes for each level.

Tech Stack:

HTML, CSS, JavaScript

Movies App – React JS

A movie browsing web app that fetches real-time data from TMDB API to display trending movies, detailed movie information, genres, languages, runtime, and production company logos. The app supports routing to movie details and responsive UI with both Bootstrap and Tailwind classes.

Tech Stack: React, Axios, React Router, TMDB API, Bootstrap, Tailwind CSS

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Backend Frameworks:** Flask, Django
- **Frontend Technologies:** React.js, HTML5, CSS3
- **Databases:** MySQL, PostgreSQL
- **Version Control:** Git, GitHub
- **Operating Systems:** Linux (Administration & Shell Scripting)
- **Web Servers:** Apache
- **Other Tools & Technologies:** RESTful APIs, Odoo ERP, Bash scripting, Agile methodologies

SOFT SKILLS

- Effective communication and teamwork
- Strong problem-solving and analytical thinking
- Adaptability and fast learning
- Time management and organization
- Attention to detail
- Ability to work under pressure
- Critical thinking and creativity

COURSES

- Full Stack Python Web Development – Information Technology Institute (ITI)
- Advanced Java Programming with Spring Boot

LANGUAGES

- **Arabic:** Native
- **English:** Intermediate
