

Abdelrahman Hatem Othman

Backend Developer | .Net | Django

+201553982065 | Tanta, Gharbia, Egypt

abdoetman010@gmail.com | www.linkedin.com/in/abdohatem25 | <https://github.com/Abdo-H-Etman>

"Military Status: Final Exempted (Feb 2025)."

A Motivated Junior Backend Developer with hands-on experience in building and maintaining web applications using .NET and Django frameworks. Skilled in designing APIs, managing databases, and implementing clean, efficient, and scalable code. Eager to learn and adapt quickly to new technologies, with a strong foundation in problem-solving and teamwork.

Education

Faculty of Science, Tanta University,
Bachelor's degree, Computer Science, GPA 3.64 (Excellent)

2020 – 2024

Skills

- Web API
- Entity Framework
- LINQ
- ASP Net Core
- .Net Framework
- Blazor
- Django
- Python
- C#
- C++
- OOD
- OOP
- Data Structure
- Competitive Programming
- HTML
- CSS
- SQL
- SQLServer
- Postgres
- Git & Github

Experience

Django Developer (Part-Time)

Apr 2025 – Jul 2025

working on an ERP system for a factory, my responsibilities are

- Creating RESTful APIs using Django REST Framework (DRF) to handle data exchange between the frontend and backend.
- Designing and optimizing database schemas (PostgreSQL) for efficient data storage and retrieval.
- Implementing secure user authentication (e.g., JWT, OAuth) and role-based access control (RBAC) for different user roles in the factory.
- Ensuring seamless communication between the frontend using MVT(Model View Template).

Projects

Project Management System(In Progress) [GitHub](#)

- Built RESTful APIs using .NET 10 with Clean Architecture.
- Implemented JWT authentication and role-based authorization.
- Designed database using EF Core with soft delete and audit fields.
- Applied Repository, Unit of Work, and Service layer patterns

E-Commerce **GitHub**

- Built a scalable E Commerce backend in C# using .NET 10 with a clean layered architecture and dependency injection.
- Implemented data persistence, schema migrations and relational mapping with EF Core to ensure transactional integrity and maintainability.
- Wrote complex, type safe queries and projections with LINQ for efficient filtering, sorting, pagination and aggregation.
- Designed and documented RESTful APIs for product catalog, shopping cart and order processing with validation, error handling and performance considerations.

Participations

Smart Government Hackathon (Benha university) 2023:

4th place on smart authentication track

Egyptian Collegiate Programming Contest 2024

Courses

- **Sprints x Microsoft Summer Camp - Web Development(40 hrs).** [Certificate](#)
- **C++ Object-Oriented Design and Programming - Dr/ Mustafa Saad**
- **“(Book) Ultimate ASP NET Core Web API” by Marinko Spasojevic & Vladimir Pecanac**
- **Dot Net Development Skills playlists – Metigator| Issam Abdelnabi**

Languages

- Arabic (Native)
- English (Elementary Proficiency)
