SUMMARY

Focused on Business Analysis, with practical experience gained through training and professional roles. Passionate about identifying opportunities, analyzing data, and developing strategies that drive growth and improve business performance. Currently seeking an opportunity in a forward-thinking company where I can contribute, grow, and help achieve impactful results.

INTERNSHIPS

- **ITI – Business Analysis & Intelligence Automation Development Track** *Mar 2025 – Jul 2025*
4-month training where I worked on business analysis tasks, used SQL for data handling, and learned automation tools like UiPath and n8n to improve business processes.
- **InnovEgypt – TIEC & Aspire | Entrepreneurship Training** *Jan 2025*
Learned the basics of innovation, idea generation, teamwork, and how to turn ideas into startup projects. Worked on a project aligned with Egypt Vision.

WORK EXPERIENCE

- **Business Developer – FAS (Fekrah for Architectural Solutions)** *Sep 2025 – Present*
Developing and maintaining client relationships, exploring new business opportunities, and supporting the company's growth in architectural and interior solutions.
- **Data Analyst – Kayan for Interior Finishing Company** *Aug 2024 – Nov 2024*
Analyzed customer and sales data, created dashboards using Excel and Power BI, and used SQL to support business decisions.
- **Sales Assistant – Computer & IT Devices Shop** *Jun 2022 – Sep 2022*
Sold computer devices and accessories, assisted customers with product selection, and supported basic store operations.
- **Math and Computer science Instructor (Freelance)** *Oct 2020 – Present*
Taught math and Computer science to children using simple, engaging methods. Developed strong communication and problem-solving skills.

PROJECTS

- **ACME System1- Calculate Client Security Hash (UiPath)** *Jul 2025*
Developed a UiPath automation to complete the "Calculate Client Security Hash" process on the Acme System 1 portal. Automated the extraction of client data (Client ID, Client Name, and Client Country) and generated a SHA1 hash to update records accordingly. [GitHub](#)
- **RPA Challenge Automation (UiPath, Excel)** *Jul 2025*
Built a UiPath bot to complete the RPA Challenge by dynamically filling web forms using Excel data. [GitHub](#)
- **IMDB Movie Data Scraper (UiPath)** *Jun 2025*
Created a UiPath automation to extract movie details from IMDB based on dynamic search input. [GitHub](#)
- **Student Management System** *April 2025*
Designed a C# desktop application with SQL Server integration using Entity Framework Core. [GitHub](#)
Implemented student CRUD operations, dynamic reporting, and structured database queries using LINQ.
