EDUCATION

Arab Open University | 2021-2025

Bachelor in Computer Science : software engineering

- GPA: 3.33

WORK EXPERINCE

Banque Misr - DevOps Intern

01/2024 - 7/2024

- Cloud & Virtualization:
- AWS VPC configuration, networking, and cloud resource management
- Terraform infrastructure as code (IaC) for automated deployments
- Containers & Orchestration:
- Docker containerization and image management
- Kubernetes cluster deployment and management
- CI/CD & DevOps:
- Jenkins for continuous integration and deployment pipelines
- Git & GitHub for version control and collaborative development
- Operating Systems & Scripting:
- Linux system administration and command-line proficiency

DEPI - SOC analyst incident and respond

05/2025 - 11/2025

- Monitoring and analyzing security events using SIEM tools to detect potential threats.
- Investigating incidents, identifying indicators of compromise, and performing root cause analysis.
- Containing, mitigating, and recovering from security breaches while documenting each step.
- Applying analytical thinking, communication, and teamwork for effective incident handling.

Projects on SOC:

- Phishing Mail Detected
- Suspicious hh.exe Usage
- Proxy - Malicious Executable File Detected
- Javascript Code Detected in Requested URL
- Remote Code Execution Detected in Splunk Enterprise
- APT35 HyperScrape Data Exfiltration Tool Detected
- RDP Brute Force Detected
- Palo Alto Networks PAN-OS Command Injection Vulnerability Exploitation (CVE-2024-3400)

CERTIFICATES

CCNA: Routing and Switching | NTI | 2024

Networking Skills: LAN/WAN, VLANs, Trunking, STP, IP Addressing/Subnetting, Routing (Static & Dynamic), DHCP, NAT, ACLs, Network Troubleshooting, SDN & Network Automation Basics

Cisco CyberOps Associate | NTI | 2024

Cybersecurity Skills: Security monitoring, incident detection & response, threat analysis, network security, SIEM tools, SOC operations

SKILLS

- Algorithms & Data Structures
- Critical Thinking
- Cybersecurity & SOC
- DevOps Fundamentals
- Effective Communication
- Incident Response Fundamentals
- Linux Basics
- Microsoft Office & Computer Literacy
- Network Security Principles
