Profile

Motivated Computer Science graduate with a solid foundation in software engineering, algorithms, and problem solving. Skilled in Java, Kotlin, and modern frameworks, with hands-on project experience. Passionate about learning new technologies, exploring backend, mobile, and full-stack development, and contributing to impactful solutions in collaborative environments.

Education

Menofia University – B.Sc. in Computers & Informations
Information Technology Institute (ITI)

(2019–2023) – Shebin Elkom, Egypt
(4 months)

Skills

- Technical Skills :

- Java
- Kotlin
- Spring Boot
- Hibernate
- MySQL
- SQL Server
- RESTful APIs
- JWT Authentication
- Git & GitHub
- Clean Architecture
- MVC
- Postman

- Soft Skills :

- Problem Solving & Analytical Thinking
- Communication Skills
- Teamwork & Collaboration
- Continuous Learning & Self-Motivation
- Time Management & Adaptability

Projects

Shopping Cart Backend – Java / JWT / MySQL

- Implemented **CRUD operations** for products, categories, carts, and orders.
- Developed services, controllers, and DTOs for clean architecture.
- Integrated **user authentication and authorization**.
