

OMER ASHRAF ESSA ABBAS

Techno-Functional Odoo Architect & DevOps Specialist Location: Al-Madina El Monawara, Saudi Arabia | **Phone:** +966 507897148 **Email:** omerdev96@gmail.com | **LinkedIn:** [linkedin.com/in/omer-ashraf-essa-abbas-16520419a](https://www.linkedin.com/in/omer-ashraf-essa-abbas-16520419a)

PROFESSIONAL SUMMARY

Highly analytical and process-driven Systems Professional with **10 years of Linux experience** and deep expertise in Odoo development (Versions 12–19). Proven ability to bridge the gap between business requirements and technical implementation, transitioning seamlessly between **Business Analyst, Developer, and DevOps Engineer** roles.

Experienced in implementing robust ERP solutions with a strong focus on **Product Design** and **Quality Assurance**. Possesses **7 years of Server/VPS management** and **5 years of Containerization (Docker)** experience, enabling the deployment of scalable, secure Odoo architectures. Excellent track record of partnering with technical and non-technical teams to deliver high-quality custom software and operational efficiency.

TECHNICAL MASTERY & SKILLS

Odoo Ecosystem & Development

- **Versions:** Expert in Odoo V12 through V19 (Community & Enterprise).
- **Hosting & DevOps:** Odoo.sh, On-premise, AWS/Cloud VPS.
- **Development:** Full-stack customization, Python programming, Custom Module creation.
- **Database:** Advanced SQL queries, PostgreSQL management, bespoke reporting.

Infrastructure & DevOps (The "Ops" Stack)

- **Linux (Ubuntu):** 10 Years Experience (User Level) | 7 Years Experience (Server/VPS Administration, Droplets).
- **Containerization:** 5 Years Experience with Docker & Containers.
- **Networking:** Domain management, Server operations, Nginx, Security hardening.
- **Tools:** GitHub/Git (Version Control), CI/CD concepts.

Core Competencies & Process Skills ("Soft Skills")

- **Algorithmic Thinking:** Strong ability to deconstruct complex problems into logical, efficient code structures.
- **Business Analysis:** Expert in mapping raw business needs to technical ERP blueprints.
- **Product Design:** Concept-to-launch mindset; visualizing end-products that solve specific user pain points.

- **Quality Assurance (QA):** rigorous testing methodologies for ERP flows to ensure zero-defect deployments.
 - **Methodology:** Agile, Project Management, Cross-Functional Collaboration.
-

WORK HISTORY
