

MOHAMED SHAFIK MOHAMED "MBA In Progress"

Odoo ERP Functional Consultant | Finance Expert

010 9723 2822 | Mshafek41@gmail.com | Cairo

Professional Summary

A results-driven **Finance and ERP** professional with a strong background in accounting, financial planning, and **IFRS standards**. Currently pursuing an **MBA** in 2025 and having completed **CMA** Part 1, I bring a unique combination of financial expertise and in-depth technical knowledge of ERP systems.

I have a deep passion for **Odoo ERP** and have successfully led and implemented numerous projects for companies across a wide range of industries. This success is driven by my comprehensive understanding of business processes and my ability to translate and implement them effectively within the Odoo framework.

With my dual experience as a Finance Manager and Odoo Consultant, I effectively bridge the gap between business needs and system solutions. I am constantly seeking new challenges and opportunities to expand both my academic and practical knowledge, aiming to deliver impactful and sustainable results in every project I lead

Experience

Odoo ERP Functional Consultant | Noptechs | Saudi Arabia (Remote) | February 2025 – Present

- Led complete Odoo ERP implementation projects across various industries, handling the full cycle from business analysis to go-live and post-implementation support.
- Successfully managed the integration with **ZATCA** (Zakat, Tax and Customs Authority) by aligning system configurations with Saudi e-invoicing requirements, ensuring full compliance and accuracy.
- Collected and analyzed client requirements, particularly for non-standard business needs, and translated them into detailed functional specifications. Worked closely with developers to explain the required logic, received and tested the delivered solutions, and ensured they met the client's expectations.
- Designed and deployed customized workflows and interfaces using Odoo Studio, creating tailored solutions without the need for extensive backend development.
- Provided proactive technical and functional support to clients, troubleshooting system issues, resolving operational challenges, and ensuring smooth day-to-day usage.
- Collaborated with cross-functional teams including developers, QA engineers, and project managers to deliver high-quality implementations on time and within scope.
- Delivered training sessions and created user documentation to help clients efficiently operate their Odoo environment

Odoo ERP Consultant | Global Business Solutions - GBS | Cairo | February 2024 – January 2025

- Collaborated with clients to deeply understand their business workflows and translate them into tailored Odoo ERP solutions.
- Designed, configured, and customized Odoo modules to meet specific operational needs.
- Led full-cycle Odoo implementation projects across diverse industries including manufacturing, retail, and financial services.
- Delivered strategic business analysis to develop scalable and efficient ERP solutions.

- Provided post-implementation support, system maintenance, and performance optimization.
- Trained end-users and developed clear documentation for ongoing system use.
- Managed project timelines, resources, and budgets to ensure successful, on-time delivery.

Chief Accountant & Odoo Implementer | Maa El Thahab Company & Flordor Factory | Hurghada | November 2018 - January 2024

- Led the successful end-to-end implementation of **Odoo ERP**, transforming the company's operations across departments (Sales, Accounting, Inventory, HR, Payroll, POS, Purchase, Documents, Sign, etc.).
- Designed fully integrated business workflows and ensured seamless communication between departments inside Odoo, tailored to the company's unique structure.
- Built the **entire manufacturing cycle** inside Odoo, including product cost structure, indirect cost allocation, and production accounting for the factory.
- Configured and customized multiple Odoo modules to meet real business needs, achieving a full **digital transformation**—from operations to documentation and online signature.
- Trained department heads and staff on daily Odoo operations, building an in-house team capable of sustaining and expanding the system.
- Oversaw Odoo-based VAT reporting, e-invoicing integration, payroll management, and automated financial reports.
- Migrated the company from Accflex ERP to Odoo with improved automation, data accuracy, and workflow efficiency
- Applied accounting knowledge (IFRS-based) to ensure financial module accuracy and compliance within Odoo

ERP Consultant | AB-Tech International | Mansoura | April 2017 - October 2018

- Acted as the primary responsible for implementing Metallic ERP system for clients, ensuring that the system was tailored to their specific business needs. Conducted in-depth discussions with clients to understand their requirements and adjusted the system accordingly to enhance operational efficiency.
- Led the process of system configuration and customization, ensuring that the ERP system was ready for use and aligned with client expectations.
- Delivered comprehensive training sessions for employees and key users, both on-site and remotely, to ensure smooth adaptation to the new system.
- Provided ongoing technical support to clients, both through on-site visits and remote assistance, troubleshooting any issues and ensuring system stability.
- Managed the complete lifecycle of ERP implementation, from initial needs assessment to system deployment and post-implementation support.
- Acted as the bridge between clients and the development team, ensuring that any custom requirements were efficiently communicated and implemented.

General Accountant | Lozan cosmetics company | Mansoura | August 2016 - March 2017

- I have designed a complete accounting system on Excel through which all accounting operations are recorded

- Monitoring the balances of customers and suppliers and issuing account statements to them periodically
- Determining the commission of sales representatives according to the sales value of each representative
- Follow up on Cash movement and analyze expenses in detail
- Record purchasing movements and fully monitor inventory
