Odoo Functional Consultant

Experienced Odoo Implementer with strong functional knowledge across Accounting, Sales, Purchases, Inventory, HR, and other core modules. Delivered multiple full-cycle implementations covering configuration, process mapping, training, and go-live support. Skilled in problem-solving, workflow customization, data migration, and aligning ERP systems with Egyptian business and financial regulations.

Professional Summary

Odoo Functional Consultant with 2+ years of hands-on implementation experience and a strong accounting background. Successfully implemented 18+ ERP projects for companies across trading, manufacturing, contracting, and services industries. Highly capable in system configuration, testing, user training, and post-implementation support.

Experience

Odoo Functional Consultant – IBS (March 2024 – November 2025)

- Led full-cycle Odoo implementations for clients across multiple industries.
- Worked on Accounting, Sales, Purchases, Inventory, Manufacturing, HR, POS, Helpdesk, Maintenance, and Marketing modules.
- Configured systems, mapped business processes, and customized workflows.
- Delivered training sessions and provided post-go-live support.
- Conducted testing, data migration, and documentation.

Freelance Odoo Implementer – Online (Aug 2023 – Feb 2024)

- Delivered remote Odoo consultancy and functional implementation services.
- Implemented and configured modules: Accounting, Sales, Purchases, Inventory, HR, POS, Helpdesk, Maintenance, and Marketing.
- Supported clients with Egyptian tax, reporting, and financial compliance.
- Performed automated workflows, data imports, and reporting improvements.

Accounting Trainee – Accounting Office (July 2022 – Dec 2022)

- Assisted with Odoo setup for small companies focusing on financial and inventory modules.
- Worked on Chart of Accounts setup and data migration.
- Helped improve accounting workflows and reporting.

Customer & Vendor Accountant – Friends Company (2017 – 2022)

- Managed accounts payable/receivable and daily financial operations.
- Prepared reconciliations, reports, and supported audits.
- Improved internal processes and documentation.
